HomeScreen

Features

Flat, aluminum frame with projection screen fabric mounted on 4 sides via tension rods and hooks.

Black frame (8 cm wide) increases perceived clarity of projected image.

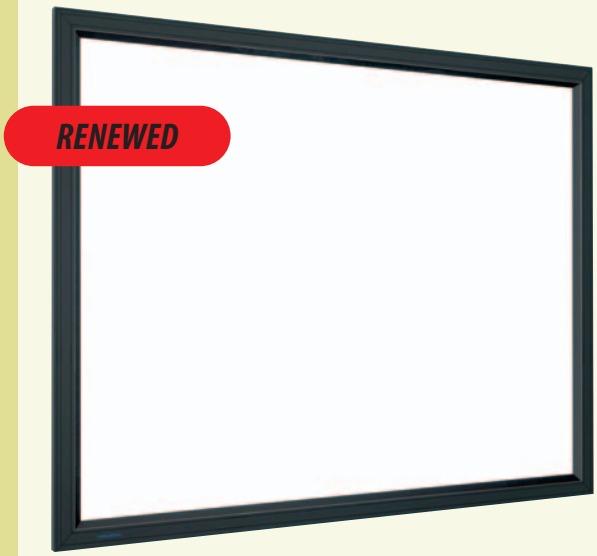
Sloping inner side of frame reduces shadow in image.

Simple mounting frame.

Permanent mounting on wall using mounting materials provided.

Options

- Formats video (4:3) and HDTV (16:9).



▲ **Beautiful matte black frame with screen fabric stretched all the way around the back for a perfectly taut projection surface.**

Technical characteristics

- All projection screens are designed and made according to DIN 19045 part 1-5.
- Flat, aluminium frame (3 cm deep) can be slid together. Powder-coated with structure lacquer in black.
- Matte white P: vinyl plastic with black rear; reflection value 1,0, viewing angle 50° L/R, weight approx. 450 gr/m^2 and thickness approx. 0.32 mm.
- Projection screen fabric(s) satisfies the requirements for fire safety for building materials and building components.
